**FIRE DEPARTMENT
CORE COMPETENCIES / SKILLS MAINTENANCE TASK BOOK**

This Core Competencies / Skills Maintenance Task Book (CCTB) has been developed to document the required core competencies for firefighter/engineer re-certification. Each objective lists the performance requirements (tasks) in a format that allows the individual to be evaluated against written guidelines. Successful performance of all tasks, as observed and recorded by a department approved evaluator, will result in a recommendation to the Fire Chief (or designee) of the fire department that the firefighter be re-certified in that position.

Evaluation and confirmation of the individual's performance of all the tasks may involve more than one evaluator and can occur in a classroom and/or drill field environment as applicable. It is important that performance be critically evaluated and accurately recorded by each evaluator. All tasks must be evaluated before recommending certification. All statements within a task which require an action must be demonstrated before that task can be signed off.

RESPONSIBILITIES:

The Fire Chief or his/her designee may authorize personnel to sign and be an evaluator. Individuals **may not** sign off on themselves. **The Training Chief is normally the designated final evaluator** and he/she will review each CCTB completed with the Fire Chief or Designee. The "Evaluator" **CANNOT teach and coach while he/she is evaluating.**

The **Firefighter** is responsible for:

- Reviewing and understanding instructions in the CCTB.
- Identifying desired objectives/goals.
- Satisfactorily demonstrating completion of all tasks within one calendar year.
- Assuring the Evaluation Record is complete.
- Notify his/her "Company Officer" when the CCTB is complete.

The **Final Evaluator** is responsible for:

- Signing the verification statement inside the front cover of the CCTB when all tasks have been initialed and the firefighter is recommended for certification.

If a task book is lost or stolen the member will have to retake any task that had been completed. It is the member's responsibility to keep track of their task book.
